Published as a Supplement to the January, 1943, Number of METALS AND ALLOYS

A Complete Index to

METALS and ALLOYS

Volume 16

July - December 1942, inclusive

This is a complete index of the contents of METALS AND ALLOYS for Volume 16—the July to December 1942 issues, inclusive. It covers not only the feature articles and the digests, but all the departments (The Production Front, Editorial Comment, Shop Notes, News, Books, and Trends) as well. All items are indexed not only under their titles or specific subjects, but are also grouped and indexed under the major broad subdivisions of the magazine's field. The index was prepared by Edward M. Allen.

The department in which the item appears is indicated in each entry by words as "(digest)", "(news)", etc. following the subject or author. Where a department is not thus indicated, the indexed item was a feature article. The reference numeration indicates, first, the page number, which is continuous throughout the volume; second, the volume number, which is constant for the present index; and third, the issue number showing the month in which the item appeared: Thus, the reference number 498:16-3 indicates that the indexed article is to be found on page 498 of volume 16 (July-December 1942) in the September issue.

—The Editors.

SUBJECT and TITLE INDEX

Ability and machines, inc.—a new idea (production front)—562:16-4
Accidents, as production leak (production front)—381:16-3
Achievements:
  Engineering, annual award for—598:16-4
  Some other, Cone, Edwin F.—630:16-4
Acid Open-Hearth Research Association, formed (news)—996:16-5; (trends)—1028:16-5
Acme Steel Co., employees contribute picnic fund to U.S.O. (news)—467:16-3
Air-conditioned blast furnaces (trends)—370:16-2
Aircraft and engines:
  Aircraft handbook, 5th ed., Colvin, Fred H. (book review)—1176:16-6
  Bombers, assembling (trends)—840:16-4
  Castings, inspecting (digest)—356:16-2
  Castings, light metal (digest)—1102:16-6
  Castings, x-ray of (digest)—812:16-4
  Centrifugally cast cylinder barrels for—1062:16-6
  Cylinder liners, tubing for (digest)—338:16-2
  Electroplating, Janssen, R. R. (digest)—504:16-3
  Induction heat for (digest)—502:16-3
  Industry salvage kinks, Knight, Harold A.—257:16-2
  Japanese, metal-design of (digest)—800:16-4
  Liquid-cooled (trends)—370:16-2
  Low alloy steel in (digest)—950:16-5
  Nitriding an engine part, Stedman, Gerald E.—420:16-3
  Parts, electroplating (digest)—942:16-5
  Plywood, resin-bonded (trends)—188:16-1
  Plywood planes a la Vidal, Heldt, P. M. (digest)—518:16-3
  Propeller blades, steel (trends)—370:16-2
  Propeller blades, welding (digest)—1140:16-6
  Repairs, explosive rivets for (shop notes)—1096:16-6
  Riveting fundamentals, Tabraham, G. E. (book review)—1176:16-6
  Sky leviathans (trends)—550:16-3
  Strain-gage technique, Strang, C. R. (digest)—530:16-3
  Tubular parts, heat treating—641:16-4
  Welding (trends)—840:16-4
  Welding magnesium with helium (news)—451:16-3
  Wings, taking wrinkles out of (news)—462:16-3
Air film doubles stamping output, Greth, V. L. (shop notes)—469:16-3
Air hardening forging die inserts (digest)—760:16-4
Albree, Anson B., joins the A. F. Holden Co. (news)—1194:16-6
Allison, James, made chief metallurgist for Star Drilling Machine (news)—276:16-2
Alloy scrap in steelmaking, Herty, C. H., Jr.—253:16-2
Alloy steel, see Steel (carbon and alloy)
Alternates, see Conservation and substitution
Aluminum and its alloys:
  Achievements, some other, Cone, Edwin F.—630:16-4
  Aircraft castings, light metal (digest)—1102:16-6
  Anodizing in chromic acid (digest)—1116:16-6
  Casting (digest)—918:16-5
  Casting alloys, Bonsack, W. (digest)—918:16-5
  "Cold-" treating augments "heat-" treating (production front)—846:16-5
  Deep drawing (digest)—324:16-2
  Die castings, finishing (digest)—318:16-2
  Die castings, making (digest)—140:16-1
  Drop hammer techniques (digest)—1128:16-6
  Duralumin sheet, cold-forming (digest)—740:16-4
  Electroplating on (digest)—938:16-5
  Forging (digest)—154:16-1; 508:16-3
  From clay, Jeffries, Zay (digest)—300:16-2
  Gas bottles (digest)—166:16-1
  Heat-treating furnace, speedy (news)—658:16-4
  How much is 1,050,000 tons? (trends)—370:16:2
  Impact-extrusion of (digest)—126:16-1
  Joining steel and (digest)—510:16-3
  Light alloy division formed by A.F.A. (news)—660:16-4
  Light metals (trends)—1028:16-5
  Light metals and plastics age (editorial)—43:16-1
  "Magal age," the (trends)—1204:16-6
  Permanent mold castings (digest)—132:16-1
  Pistons, castiron for (digest)—336:16-2
  Plated (digest)—756:16-4
  Plating on, Yates, Raymond F.—1084:16-6
  Powder, new process for (digest)—306:16-2
  Production outlook (production front)—8:16-1
  Radiography of spot welds, Woods, Robert C., Barrett, John C., and Dietz, T. W.—442:16-3; 1080:16-6
  Riveting, machine for (news)—1192:16-6
  Saving (trends)—1204:16-6
  Tentative standards and recommended practices and procedures for spot welding of (book review)—835:16-4
  Welding, stored-energy (digest)—146:16-1
  Wings, taking wrinkles out of (news)—462:16-3
American Foundrymen's Association:
  Light alloys division formed (news)—660:16-4
  Membership at all-time high (trends)—550:16-3
American Institute of Mining and Met. Engineers, metals divisions, convention program—682:16-4
American Society for Metals, convention program—674:16-4
American Society for Testing Materials, report of annual meeting—83:16-1
American Society of Tool Engineers, to train manpower (news)—456:16-3
American Welding Society, convention program—686:16-4
Ammonia, handling, for metal treatment, Brandt, L. H.—60:16-1
Anodizing in chromic acid (digest)—1116:16-6
Applications of zirconium, Furia, A. (digest)—344:16-2
Arc welding, see Welding
Arc welding sets, Wyer, R. F. (digest)—936:16-5
Armament, see Ordnance and armament
Armor, cast and wrought—630:16-4
Armor plate, cast, machining (digest)—944:16-5
"Armor plate university" an (trends)—186:16-1
Army Ordnance Department:
  Achieves huge materials economies (production front)—847:16-5
  Organization efficiency of (production front)—848:16-5
Arsenic in pig iron (trends)—370:16-2
Assemblies, small, brazing of (digest)—498:16-3
Associations, trade and professional, directory of, Judkins, C. J. (book review)—364:16-2
Atmospheres, furnace, measuring (digest)—179:16-1
Automatic arc welding equipment (news)—1000:16-5
Automotive products:
  Cast iron for aluminum pistons (digest)—336:16-2
  Crankshafts, cast iron (digest)—308:16-2
  Cylinder liners, tubing for (digest)—338:16-2
  Post-war automobile (trends)—372:16-2
Award, annual, for engineering achievement in metal industries—598:16-4
Backing-up rolls, Succop, J. A. (digest)—914:16-5
Baking lamps, infra-red (news)—1012:16-5
Balancing machine:
  Industrial (news)—288:16-2
  Range expanded (news)—269:16-2
Balls, bounceless, illustrate principle (news)—451:16-3
Bartels, Howard F., becomes heat treater for Rock Island Arsenal (news)—466:16-3
Bearings:
  Aircraft castings, light metal (digest)—1102:16-6
  Diesel engine (digest)—808:16-4
  Engine, lead for tin in (shop notes)—1095:16-6
  Leaded, substitutes for bronze—1072:16-6
  Metal, sprayed (digest)—788:16-4
  Oil-corrosion tester (digest)—1166:16-6
  Silver for (digest)—1158:16-6
Bergin, T. G., joins the A. F. Holden Co. (news)—1194:16-6

Beryllium:
Conservation and substitution—so far—607:16-4
Copper springs, Carson, Robert W. (digest)—344:16-2
Blackened steel, oils for (digest)—772:16-4
Blanking and piercing die, Haydock, J. (digest)—952:16-5
Blast control, cupola (digest)—732:16-4
Blast furnaces:
Air conditioned (trends)—370:16-2
Another (trends)—370:16-2
Arsenic in pig iron (trends)—370:16-2
Canadian steel and pig iron production (trends)—840:16-4
Ferro alloys, making, in Brazil (digest)—922:16-5
Ferro-alloys, produced in Sweden (digest)—482:16-3
Ferromanganese from low-grade ores (trends)—1206:16-6
India, war material production in (digest)—480:16-3
Iron, new capacity (trends)—550:16-3
Iron, pig vs scrap vs sponge (editorial)—229:16-2
Iron ore, demand for (trends)—1206:16-6
Iron ore, more magnetite (trends)—1028:16-5
Relining a (trends)—552:16-3
Sinter in (digest)—124:16-1; (trends)—186:16-1
Welded (trends)—1028:16-5
Blast production, dry (digest)—924:16-5
Blind spot fasteners, rivets as (shop notes)—291:16-2
Blocks, building (editorial)—45:16-1
Blueprints, replaced by photographs (production front)—194:16-2
Bolts, heat treating (digest)—150:16-1
Bombers, assembling (trends)—840:16-4
Bombs, demolition, welded—634:16-4
Book reviews:
Aircraft hand book, 5th ed., Colvin, Fred H.—1176:16-6

Industrial salvage, efficient, an engineering problem, Peters, Fred P.—249:16-2

Industrial uses of silver, Setapen, A. M.—46:16-1

Industry, expansion of (trends)—1204:16-6

Infra-red ray weld testing (digest)—812:16-4

Inserts, die casting (digest)—1130:16-6

Inspection:
- Aircraft castings (digest)—356:16-2
- Flaw detection, sodium light for (news)—996:16-5
- Flaws in non-magnetic metals (digest)—358:16-2
- Fluorescent magnetic, Thomas, W. E.—886:16-5
- Fusion welding, recommended practices for (book review)—367:16-2
- Gages, three dial indicator (news)—99:16-1
- Gaging system, efficient (digest)—972:16-5
- Inspector speaks, the (digest)—174:16-1
- Magnetic powder, for sub-surface flaws (digest)—1172:16-6
- Magnetic testing (shop notes)—1096:16-6
- Magnifying glasses aid precision (news)—1014:16-5
- McKee wear gage (news)—460:16-3
- Physical examination of metals: electrical methods, Chalmers, Bruce, and Quarrell, A. G. (book review)—366:16-2
- Recommended practices for inspection of fusion welding, A. W. S. (book review)—367:16-2
- Spark test for classifying metals—266:16-2
- Strain-gage technique, Strang, C. R. (digest)—530:16-3

Instrumentation:
- Furnace atmospheres, measuring (digest)—179:16-1
- Temperature control for salt baths (news)—1190:16-6

Insulation, see Refractories and insulation

Iron:
- Air-conditioned blast furnaces (trends)—370:16-2
- Arsenic in pig (trends)—370:16-2
- Castings, high pressure (digest)—1108:16-6
- High-test, for dies, Smalley, O. (digest)—494:16-3
- High-test, from the cupola, Braidwood, W. W. (digest)—476:16-3
- New capacity (trends)—550:16-3
- Pig vs scrap vs sponge (editorial)—229:16-2
- Sponge (trends)—842:16-4

Iron and the open-hearth (digest)—724:16-4

Iron ore:
- Demand for (trends)—1206:16-6
- More magnetic (trends)—1028:16-5

Iron pioneer—Henry W. Oliver, Evans, Henry Oliver (book review)—360:16-2

Japanese aircraft engine, metal-design of (digest)—800:16-4

Jewett, M. G., now lieutenant-colonel in army (news)—466:16-3

Jones, George T., appointed chief metallurgist of Homestead Steel Works, Carnegie-Illinois Steel Corp. (news)—654:16-4

Kates, Norman, becomes metallurgist for Accurate Steel Treating Co. (news)—466:16-3

Knotted string—autobiography of a steel maker, Brearley, Harry (book review)—363:16-2

Kramer, Lloyd B., becomes metallurgist for Herman Machine and Tool Co. (news)—464:16-3

Labor migration (trends)—840:16-4

Laist, Frederick, elected vice-president of Anaconda Mining Co. (news)—106:16-1

Lamps, baking, infra-red (news)—1012:16-5

Langdon, R. H., appointed field engineer, Pittsburgh district, by Norton Co. (news)—464:16-3

Lawrence, Victor H., made general superintendent of Otis Works, Jones and Laughlin Steel (news)—276:16-2

Lead:
- From "pillars" (production front)—199:16-2
- Melting furnace (digest)—736:16-4
- Plentiful as substitute (production front)—379:16-3
- Substitute for tin in engines bearing (shop notes)—1095:16-6

Lead base, tin-saving alloy (news)—274:16-2

Lessons from British maintenance (news)—272:16-2

Let's write good letters, Perry, Sherman (book review)—364:16-2

Letters to the editor:
- Copper-bearing steel, Awgun, Wallace J.—644:16-4
- Enamelware utensils in the services, Pearce, C. S.—246:16-2

Levy, Edward M., now metallurgist with Carnegie-Illinois Steel Corp. (news)—466:16-3

Light metals:
- (trends)—1028:16-5
- Gas bottles (digest)—166:16-1
- Plastics and light metals age (editorial)—43:16-1

Liquid-cooled airplane engine (trends)—370:16-2

Literature, company, effective (trends)—1026:16-5

Low-melting metals and alloys:
- Lead, plentiful as substitute (production front)—379:16-3
- Lead for tin in engine bearings (shop notes)—1095:16-6
- Tin-saving alloy, lead base (news)—274:16-2
- Tin solders, 2nd ed., Nightingale, S. J., and Hudson, O. F. (book review)—366:16-2

Lubricants, cutting oil, new (news)—996:16-5

Mabey, Charles A., becomes director of research, Bristol Company (news)—106:16-1

Machine tools (trends)—840:16-4

Machinery (design):
- Bolts, heat treating (digest)—150:16-1
- Cylinder-honing machine, 26-inch bore (news)—650:16-4
- Diesel engine bearings (digest)—808:16-4
- Hardened parts, straightening (digest)—136:16-1
